Denounces Archbold and Penrose in Vermont; Johnson Wins Friends in Utah

**MAKES ADHERENTS FOR PROGRESSIVE CAUSE**

Address Largest Political Meeting Ever Held in Confines of the State

BENNINGTON, Vt., Aug. 29.—Col. Roosevelt opened the Vermont campaign with a renewed attack on Archbold and Penrose and denounced "their misrepresentation to the senate campaign contributions committee."

After urging his hearers to support the Progressive state ticket, Colonel Roosevelt said: "Jim Watson of Indiana is coming here to speak against me. He is one of the mechanics operating the steam-roller at the Chicago convention. They would rather beat me than win the election."

**GOV. JOHNSON WINNING SENTIMENT IN UTAH**  
SALT LAKE, Aug. 29.—Governor Johnson, Progressive candidate for vice president, never appeared to better advantage and never spoke more convincingly than he did in this very citadel of reaction. The great audience which packed the auditorium, again and again thundered forth its approval of the great issues which California's governor expounded. The meeting was probably the greatest political audience that ever assembled in this state.

Last night's demonstration of the Progressive sentiment changes the entire political aspect in this state. Even the most optimistic among the Progressive leaders are amazed. Doubt has given way to confidence, and from now until election day, the fight will be made, not with the idea of holding down President Taft's majority but rather of electing the Roosevelt-Johnson electors. From now, Utah is solid fighting ground.

## TENTH INFANTRY TO INVESTIGATE HALTED BY ORDER WASTE BY GUN CLUBS

Nicaraguan Conditions Have Improved But Troops Are Held in Readiness  
Richards Says 10,000 Inches Flow Steadily From Wells Into Duck Ponds

**MOBILIZATION OF 2000 U. S. MARINES NEXT WEEK**

400 Marines Are Landed From Cruiser California—Are Policing Railroad

WASHINGTON, Aug. 29.—The state department announced today that two thousand American marines will mobilize in Nicaragua next week. Acting Secretary of State Wilson telegraphed the president today that the situation is improved. The Tenth Infantry, halted after orders to proceed to Nicaragua had been issued, is being held in readiness for further orders.

**400 U. S. MARINES ARE NOW POLICING RAILROAD**  
WASHINGTON, Aug. 29.—Corinto dispatches to the state department say that 400 U. S. marines, landed from the cruiser California, are policing the railroad in the vicinity of Managua.

**ORDER FOR TENTH INFANTRY FOR CORINTO, IS RECALLED**  
WASHINGTON, Aug. 29.—Shortly before midnight last night the orders of President Taft directing the Tenth Infantry to proceed at once from Panama to Corinto, Nicaragua, were revoked.

The regiment, which was to have left Panama today, will remain at the canal zone and hold itself in readiness for further orders. This action was decided on because the rebels have ceased their interference with communication between Managua and Corinto on the west coast. The revolutionists are still in force at Leon, the largest city on the line of railroad from the capital to the sea, but have given up attempting to block the passage of the United States forces.

The navy assured the State Department last night that under these circumstances it will be possible to keep communication open. The cruiser California, prepared to land several hundred blue jackets, will sail Corinto today and this force, naval officials say, with the marines and blue jackets already on the scene, will be sufficient to cope with the situation for the next few days. More marines are due at Corinto next week, being now en route to Colon from Philadelphia.

**WHY TENTH INFANTRY WAS ORDERED TO GO TO CORINTO**

The reason for the order was reports from Minister Weitzel at Corinto to the effect that the Nicaraguan rebels are violating every principle of civilized warfare; that they are killing women and children and firing upon non-combatants; that they have failed to respect the flag of truce, and have stopped messengers and have been flagrant in their abuse of their word to foreigners and have failed to observe armistices. In all, it is claimed here, the conditions in Nicaragua today are far worse than those which provoked foreign interference in the Boxer uprising in China in 1902.

One hundred and twenty-five Americans at Matagalpa, eighty miles from Managua, telegraphed the State Department yesterday asking that troops be sent there at once, as they feared annihilation at the hands of the rebels. Governor Masio of the Department of Rivas sent a dispatch to Minister Cabrillo of Nicaragua as follows: "Granada being sacked. Prisoners kept without food in order to force payments of huge sums of money. At Leon assassinations and sackings are going on. Urge the United States to save our country."

This condition will be remedied today with the arrival of the gunboat Denver at San Juan Del Sur, the cable station. The Denver can get in communication with wireless with the collier Justin at Corinto, which has women and children aboard.

**SCULPTOR POTTER DEAD**

Two Millions of People Line Streets as Dead Humanitarian Passes to Rest  
Capt. Sochon Will Conduct Service at Opera House; City and County Will Unite

LONDON, Aug. 29.—Two million people banked the streets today during the funeral of General William Booth, head of the Salvation Army. Twenty-one thousand Salvationists marched in line, and one hundred thousand mourners followed afoot. As the procession moved through the streets, scores of business houses were closed. General Booth's coffin was draped with the Salvation Army flag. On top lay the general's cap, uniform and Bible. Commissioner Adelaide Cox preceded the hearse, carrying a Salvation Army flag. Bramwell Booth, the new head of the Army, followed the hearse on foot, and as he walked he frequently wept.

**London Paid Homage**  
Hundreds of Salvationists and detachments of British soldiery and Marine followed. All business houses of the city were draped in black. The Lord Mayor, officially robed, stood at salute as the cortege passed his residence. A chorus of a thousand voices sang General Booth's favorite hymn at the grave. Lieutenant Colonel Damon of the American branch of the Salvation Army prayed. Bramwell, Catherine and Eva Booth, the general's children, spoke briefly. As the coffin was lowered the entire concourse sang "O, Servant of God, Well Done." Then Bramwell Booth recited the Salvationists' commitment service.

## Arden Country Club Project Is Favored

The project to form the Arden Country Club has taken the right kind of hold here, and there is every prospect that Orange County will furnish a large percentage of the membership of the club. Messrs. Aagard and Robertson, who have been presenting the proposition, find a good deal of enthusiasm among those they have talked to about the matter. The people appreciate the value of the Modjeska ranch as a scenic spot, and are satisfied that this county ought to support the club because of the fact that it will bring many people from other cities through this county on their journeys to the country club-house and grounds.

Among those who have become members of the club are Dr. P. R. Reynolds, A. J. Crookshank, W. A. Zimmerman, C. E. Lamme, J. Wiley Harris, C. A. Riggs, F. B. Case, Clyde Bishop, E. D. Burge, H. T. Rutherford, A. J. Klunk and J. P. Baumgartner.

## WOMAN TRIED TO SLAY TAFT

Alleged Attempt on President's Life Occurred at Columbus, Ohio, This Morning

**SECRET SERVICE MEN AT HAND PREVENTED HARM**

Woman Believed Insane—Several Knives Found on Person When Searched

COLUMBUS, Aug. 29.—A supposedly insane woman this morning made an alleged attempt to kill President Taft as the President entered the Southern Hotel here for breakfast.

The woman rushed at him but was seized by the secret service men. She had a long knife with its blade ground to a razor-edge. She refused to give her name or tell her motive for attacking the President.

**Later Developments**  
Later the woman gave her name as Caroline Beers, of Greenville, Ohio. Determined to reach the president, she rushed to the dining room after the police had forced her from the president's elevator where she fought furiously. Hurling herself into the dining room and attempting to reach the president she declared: "I am the president's wife. I am following him to see if he remains true to me. All I have here is a sacred knife to give him. Let me at him." Searched at the police station, several knives were found in her clothes, including one with a three inch blade which she called the "sacred knife." She had \$200 cash, also valuable jewelry. She declared that she married the president years ago in Dayton.

Secret service men say the same woman approached President Taft in Cincinnati last fall. President Taft telling her to "go home and stay with her daughter."

## MASSACRE MENACE FOR AMERICANS

Gen. Campo Threatens to Slay All Who Are in Mexico After September 16

EL PASO, Aug. 29.—Anti-American and anti-foreign demonstrations will occur on September 16 in Mexico, if the threats of General Emilio Campo, of the rebel army, are carried out. At Sangeronimo mines in Sonora, General Campo made the statement that all Americans and other foreigners remaining in Mexico after September 15 will be slain. This report was brought from Sangeronimo mines by Thomas Holland, ex-ranger of the Arizona force and now for man of the mines.

Upon his arrival in Douglas, Holland reported to American Consul Dye of Auzua Prieta, and he at once communicated the threat to Washington. This is believed to be the reason for the message to General Stever, commanding the department of Texas, asking if he would need more troops to handle the situation.

Campo has a force of 400 men in the northern part of Sonora and they are said to be in an exceedingly ugly mood toward Americans. Anti-American demonstrations are feared at any time.

**MEXICAN REBELS HOLD HILL NEAR MEXICO CITY**  
MEXICO CITY, Aug. 29.—A band estimated to contain about 900 mounted men has taken possession of the Low mountain, known as Las Guadaluas, ten miles from the national palace, in the center of this city. The hill top commands Xochimilco and Chapultepec, two suburbs, and has been fortified by the rebels supposed to be a part of the forces of Emiliano Zapata. Federal forces have been sent to dislodge them.

## BOYS RETURN FROM Y. M. C. A. CAMP AT CATALINA BETTER IN BODY, MIND AND SPIRIT

Santa Ana, Cal., Aug. 28, 1912.  
Dear Editor:—Well, here we are back safe and sound from Camp Wilkie after two weeks of the finest kind of a time. Most of us are unburned and brown, some of us have scars from slight cuts and accidents, many of us have blistered noses and cracked lips from the heat and salty water, but we are all happy and glad we had the privilege of camping together for these two weeks. Most of us are so grateful to get back to our homes again and to have the chance to sleep in a soft bed that it will be difficult for anyone to get up before 9 o'clock for a week. The "other fellows" talked too much at night or snored too loud or kicked too much so that we lost sleep considerably every night. But we feel so well in every way that we don't mind that.

And how we will enjoy a good juicy beefsteak, or some poached eggs, or some cake, or some other things we have forgotten the taste of. Potatoes and beans are good substantial food, but three times a day, more or less, for two weeks, and we are willing to sweat off on these things for a time. However, we all think that Mr. Milligan is a great cook and that Mr. Hartwick is a splendid manager of the culinary department, and you know that the best test of anything is to judge by the results. We all took our weight on the scales in Avalon in front of the Island Grocery, the day we went over, and again just before we returned, and we found

that nearly everyone we asked or heard of had gained in weight during the two weeks at camp, one boy claiming to have gained ten pounds.

This is the sixth boys' camp I have attended, and I can say it was certainly the best one I have ever been in, in each one of the sides of the Y. M. C. A. triangle, body, mind and spirit. If any critic of Y. M. C. A. work could have attended the campfires on Sunday or Monday night and could have heard the testimonies and statements by the boys of their determination to live the Christian life, and of the benefits they had received, and then could have listened to the volunteer sentence prayers following, they would have been completely silenced in their criticisms, for the great and important thing had been put into the lives of many boys, the determination to seek the highest and best things in character development.

The greatest help in the camp to me as superintendent was the religious message of Father Wilkie, after whom the camp is named, not only for the personal inspiration, but also for the help it gave in keeping the high religious tone up throughout the camp. The other important help in making a success of the camp was the inspiration and help of the earnest young men who acted as tent leaders and who did their part so faithfully in guiding and inspiring and looking after their tents of from six to seven boys. Without their

help and co-operation the camp would have been a failure.

In the camp program there was a well developed schedule of activities combining fun and practical education. We had an honor system by which the boys, by gaining points for accomplishing certain things, could receive a camp monogram, emblem, or fob, according to whether he was attending for the first, second or third year, and not over six or eight of the entire eighty boys failed to receive this recognition. The following list of activities for which recognition was given in winning these honors will give a good idea of the breadth of the activities:

Group 1, Athletics—Winning a ribbon in the track meet, baseball, volleyball or quarts. Making an athletic record of the Boy Scouts, climbing Black Jack, walking across the island.

Group 2, Aquatics—Swimming certain distances and in different ways. Learning to swim, teaching another to swim, learning to resuscitate the drowned, diving and bringing up a heavy stone from the water, demonstrating how to break away from the grasp of a drowning man and save him.

Group 3, Woodcraft—Name and identify shells, birds, leaves, fish and stars, map drawing, learning to recognize poison oak and poison ivy; finding the directions by the stars.

Group 4, Camping—Catching fish and cleaning them for meals, telling height of a pole or tree by shadows and calculations, knot tying.

Group 5, Scouting—Box the compass, qualifying as a tenderfoot, demonstrate coat and blanket litter and fireman's lift, pass first aid examination, whip and splice rope.

Group 6, Musical and Literary—Furnish a part of the campfire program, learning to give the bugle calls, writing an article for the home newspaper.

Group 7, Religious and Altruistic—Pass examination on Bible, perfect record in keeping camp rules, extra volunteer service for the good of the camp.

Group 8, Miscellaneous—Making photographs of camp scenes and passing an examination on some book selected by leaders.

This scheme required the campers to take an interest in their all-around development as they were required to earn points in each of four, five or six departments, according to whether they were attending camp for the first, second or third year. A complete list of these activities and the points to be awarded for each was posted on the bulletin board and there was scarcely a time in the day in which there were not from three to ten boys around this studying the chances of their winning enough points to get their honors. Instead of loitering around in spare time, the majority of the boys were studying the scout book, or learning to distinguish different kinds of trees, shells, fish, etc., or were looking for some leader or boy who would teach them how to tie the eight standard knots required or to whip and splice rope, or were studying for their first aid examination. It was also a strong spur in not getting boys to persevere in learning to swim. The boys knew there were 25 points in it for learning to swim and it helped them to stick by it. Also the fellows who taught others to swim were given points, and every boy at camp who did not know how to swim was given the chance to have a special teacher. As a result, out of all the boys who went to camp unable to swim a stroke or able to swim only a very few feet, there were 18 who learned to swim well enough to swim the distance required to win the international Y. M. C. A. Beginning Swimmers' button, this being 50 feet, and many swam two or three times this distance. There were also a number who learned to swim, but who did not swim the entire 50 feet and so did not get this button, at least six being among this number. Seven learned to swim on their backs. Out of those who could swim before going to camp there were scarcely a one who did not increase the distance he could swim or learn something new in swimming. Many also fulfilled the requirement for the Life Savers' fob given by the international Y. M. C. A.

The interest in the Boy Scout work was very great at camp and many learned much that will help the Sunday schools and other organizations in starting this important work this fall in the counties of Orange and San Bernardino.

In the contests blue, red and white ribbons were given for first, second and third places, and there were very few campers who did not win a place in some form of athletics. Over three hundred ribbons were given out.

Around the campfires in the evenings there was much fun and mirth. Two tents at a time had complete charge of the bonfire and some very interesting programs were given. A number of the campers brought their musical instruments with them and

## EXTRAORDINARY SCENE IN LONDON

34,000 People Join in Honors to Gen. William Booth in London

LONDON, Aug. 29.—Thirty-four thousand persons stood with bared heads, while forty bands thundered the sonorous music of the "Dead March From Saul," last night, as the body of General William Booth, asleep forever in a plain pine coffin, was borne through the great Olympia to the funeral bier.

Half the vast throng was composed of members of the Salvation Army, founded by General Booth, and they wore the familiar blue coats and red jerseys, or the blue bonnets trimmed with red ribbon. The crimson banner of the "army of fire and blood," unfurled for the first time on Mount Calvary, waving above the coffin, while banked flowers, the tribute of royalty, of high society and of many organizations, all but concealed the snow-white catafalque. Flags of all nations, Salvation Army standards, wreaths and twenty pictures of the dead general completed the decorations of the hall.

The front rows of the chairs before the coffin were filled with representatives of various societies, an equestrian to the King, several Mayors in their robes of office, a delegation from the Stock Exchange, ministers from all the Protestant churches and many Jewish rabbis. The balance of the crowd was made up of the plain people for whom the army works.

No other congregation comparable with it ever came together in London save at the funeral of the general's wife 22 years ago in the same hall. As the body entered it was preceded by the red flag of the army. Following it came officers from ten nations and then General Bramwell Booth, son of the dead general, and now commander-in-chief of the Salvation Army, and his wife.

The coffin was covered with a flag, on which rested a Bible and the general's cap. No word of mouth service was attempted, but as the two score bands broke into familiar Army hymns, the vast chorus drowned the music with song. Only the drums could be heard above the voices.

A placard bearing the figure three was elevated and all bowed their heads in prayer. Bramwell Booth, striding up and down the platform behind the coffin, swinging his arms over his head, led the singing. Then all the soldiers in the Army rose and recited in unison the Covenant of Fidelity to the Lord.

As the catafalque was wheeled slowly down the aisle the bands began "When the Roll is Called Up Yonder I'll be There" and 34,000 voices shook the arched ceiling with the hymn. The coffin was placed in a hearse and taken to the Salvation Army headquarters, whence it will be taken to Abney Park cemetery today.

As the doors closed behind the casket, Olympia became a babel of tongues and a riot of foreign delegations, trying to find companions in the throng, and the police had a struggle to restore order from chaos.

P. G. Etchison, 820 E St., Santa Ana, Cal., says: "Since using Doan's Kidney Pills in 1907, I have had little need of a kidney remedy. A dose or two on a few occasions when I have noticed pain in my back has sufficed to relieve the trouble. My opinion of Doan's Kidney Pills as was expressed in a public testimonial I gave two and a half years ago remains unchanged, as I value them as highly as ever. I was subject to attacks of kidney complaint for months and if I brought any strain on my back, I was sure to suffer from backache. Knowing that this misery was due to disordered kidneys, I finally used Doan's Kidney Pills, procured at Dean's Drug Store (now Wheeler & Mateer's Drug Store). They went directly to the seat of the complaint and I could not have asked for greater benefit."

## HAS COTTON GROWING AT BIRCH PARK HERE

Gardener Demonstration Crops Are Doing Well and Interest is Shown

At Birch Park, the gardener, E. R. Halesworth, has grown a number of demonstration crops. He goes on the theory that if it is worth while for the Chamber of Commerce to gather together fruits, vegetables and nuts to show visitors, it is worth while to grow some of those products close to the center of the city that they may be seen as grown in the field.

Among the products grown in small quantities at the park are egg plant, peanuts, okra, gourds, and chile and bell peppers.

Halesworth has produced a fine row of cotton, now in bloom. He says that many people express much interest in these plants. When the cotton is on the bushes, Halesworth expects to find even more interest displayed.

## PLENTY OF ROOM ON THE FARMS

Herbert Quick, editor of Farm and Fireside, writes an interesting article in the current issue of his periodical on the causes that are back of the high cost of living. Following is an extract:

"What we want to know is why there are not more people on the farms. I have just read in a magazine the explanation—they are all stirred up about it—that 'all the available land is taken up.' That is true if fencing, and owning, and cut-and-covering is 'taking up.' But any farmer knows that there is room for twice, three times, as many people on the farms as are there now. I heard Mr. John W. Bookwalter of Springfield and the rest of the world read a paper on this subject last winter. He called the attention of his hearers to the rush of people to the cities as a great danger to the world—to civilization.

"He seemed to miss the effect he himself has had on this matter of the rush of people to the cities. Mr. Bookwalter possesses from 60,000 to 70,000 acres of farmland. On this immense domain there live probably from a thousand to fifteen hundred people. This is in Nebraska. In Nebraska, too, lives Arnold Martin, who on twenty-one acres makes money, besides supporting his family. If the land owned by Mr. Bookwalter were owned by the men who work it, there would be living on it three thousand ordinary Nebraska farm folk, instead of fifteen hundred people. If it were owned by men like Arnold Martin, there would be room for three thousand and five hundred families, or say a population of fifteen thousand people on this same estate, which now supports perhaps fifteen hundred people on one-half the crops—and Mr. Bookwalter on the other half!

"What would be the effect on the cost of living if every tenant-farmer in these United States were all at once changed into an owner of his farm? Would it not change most of them into better farmers? It surely would. They would manure more heavily, establish better rotations, buy fertilizers, cease skinning the land, begin trying to make the place adequate to the support not only of the old folks, but of the children."

## WOMEN VOTERS

Almost every woman in California would naturally be expected to vote the Progressive ticket, for the reason that it was only through the agency and activity of the Progressive Republicans of this state that women have received any good results in recent legislation.

Women should naturally therefore support the Progressive candidates for the legislature—John N. Anderson for the senate and Hans V. Weisel for the assembly. Women should support these men for the following reasons:

1. They are pledged to carry out new and necessary legislation in favor of women.
2. They belong to the dominant party that have given women every

beneficent law that has been passed in recent years.

3. Their opponents represent and belong to a section of the Republican party that is pledged to no reform for the future, and has opposed every law that has been enacted in favor of women.

For these reasons, if for no other, the women of this state ought to vote for Progressive candidates, thus showing that they know "on which side their bread is buttered."

The Progressive ticket of national significance at next Tuesday's primary is composed of Evans for congress, Anderson for state senate and Weisel for assembly.

## "BULLY" FOR SEARS, ILL.; NOT A TAFT MAN TO BE FOUND

ROCK ISLAND, Ill., Aug. 29.—In the town of Sears, one of the suburbs of this city, they are offering a prize for the discovery of a Taft man. It appears to be literally true that in this strong little Republican outpost there is not a single man who is going to vote for the re-election of the President of the United States. The way this very interesting condition came to be known is good proof of its truth. Sears has prided itself upon its "McKinley and Hobart Club," a rockribbed Republican institution that has gone through all the campaigns since McKinley's first election. Almost all the voters in a total population of about 600 have belonged to the club.

When the primary campaign was on the Sears Republicans were for Theodore Roosevelt. When the colonel was deprived of the nomination by the machine at Chicago most of them were ready to revolt. But they felt that they could not turn the McKinley and Hobart Club over to the new Progressive party unless its membership was unanimously in favor of the change. A canvass was started and it was discovered that not one member wanted to commit the institution to the Taft candidacy.

## NEW GUN TO BRING DOWN AEROPLANES

French Officers' Invention Will Render Air Craft Harmless in Battle

NEW YORK, Aug. 29.—Aeroplane and airships are rendered absolutely harmless as war craft by a new field gun invented by Colonel A. Depert, retired, of the French artillery, according to Captain Leon Olivier, who has completed a demonstration of the gun for the War Department at Sandy Hook. Italy has already adopted this gun.

"Our field gun is like a revolver," said Captain Olivier yesterday. "You can point it and shoot it in almost any direction and almost as quickly. The great difficulty in the past with such guns has been the impossibility of manipulating them quickly enough to get the range of the moving target in the sky. With our Depert gun we can bring down an airship as easily as the hunter brings down a bird."

## RAISIN PRICES SHOOT UPWARD

Anticipated Shortage of Crop Causes Advance—Growers Hold Out to the Fruit

DUNHUA, Aug. 29.—Prices of raisins took a shoot upward today, reaching three cents for Muscats and three and one-half for Thompsons; but there is no selling even at the advanced figures, anticipating that the crop will be short and growers look for big prices.

Picking will start in a small way September 1, although it will not begin generally until ten days later. Vine grape harvest has started in a few vineyards, but only a small proportion of the growers are moving their crops, most of them awaiting something definite from the wine men in the way of offers.

## ANAHEIM MAN RAISES CROP OF CORN FULLY THIRTEEN FEET TALL

Demonstrates Wonderful Results Which Follow Intensive Soil Cultivation

Los Angeles Examiner: Corn thirteen feet tall and with corresponding large ears was cut yesterday by George Martin on his ranch near Anaheim. Martin says the corn is the result of the methods of intensive farming he has followed, and he claims his twenty-acre farm produces more vegetables and fruits for market than any two farms of similar size in the neighborhood. The corn, said to be an object of envy among nearby farmers, is of the King Philip field variety.

Hickory King and a sweet corn are grown with striking results in a second patch. The corn is very well developed and the ears are heavy. This corn was sown thick and later was thinned.

Martin says he has also produced some tomatoes weighing three pounds each, and these he pits against any produced in this region, or any other region.

"Farmers must learn to conserve their soil, but not their money. They must put back in the soil all and more than they take out. The great fault with our old-time farmer was that he got mighty little for what he did and he kept all that he got.

"My corn is not a freak. It does not apply to one or two stalks. The entire field is of equal growth. I planted during the latter part of April and did not irrigate during the early months. The field never had a real good wetting, for water was turned on only once."

A Studebaker car driven by Jack Griffin of the Studebaker sales force went over the rough field and into the corn patch with ease yesterday afternoon. The corn was away above the top of the machine, and Miss Georgia Williams, a 15-year-old girl, standing on the edge of the seat, failed to reach the topmost ears.

## RICH GOLD STRIKE REPORTED FROM HOLCOMB VALLEY

SAN BERNARDINO, Aug. 29.—According to reports from Holcomb valley, the scene of a great gold excitement in the early days of California, a rich strike has been made at that point by Colonel Wheaton of San Diego, who has been prospecting in the local range for years. It is said he followed a ledge from the vicinity of Cajon through to the Holcomb valley.

Holcomb valley was discovered by the late William F. Holcomb, and at one time 5000 people were camped in the valley. The claims were worked out and the excitement subsided in a few years and the valley is now practically deserted.

## MILLIONS SPENT MONTHLY FOR AUTOS IN CALIFORNIA

SACRAMENTO, Aug. 29.—California, according to estimate compiled in the office of the Secretary of State, spend on an average of \$3,000,000 a month for new automobiles and almost \$50,000 a month for second-hand automobiles.

More than 2000 new automobiles are registered every month in the office of the Secretary of State. These machines average in price more than \$1500 each, so the estimate of \$3,000,000 a month is considered to be conservative.

Out of the 3,000,000 California dollars it is estimated that more than \$2,000,000 goes to the factories and concerns in the East.

# Doings In Social and Club Circles

## VIOLETS WERE HOSTESSES

Lady Macabees Have Another Happy Meeting in Big Membership Contest

The regular session of the Lady Macabees, held Tuesday evening, resolved itself into a very pleasant social event at the close of business. Mrs. Ginn, deputy great commander, and her sister, Mrs. Bryer, were present as honored guests.

The hostesses of the evening were the "violets," a division in the contest that has been progressing, but which closed at this meeting. Mrs. Goepfer was in charge of the excellent program, and at its conclusion delicious refreshments were served.

A roll call of the violets was the opening feature of the program, each Violet responding with a quotation from some favorite author. This was followed by a trombone solo by Mr. Dunning, with piano obligato, Miss Dunning; vocal solo, Miss Clay; piano duet, Misses Lull and Williams; recitation, Esther Bird; violin solo, Elwell Squires; pantomime, "Bridget and Her Lovers," by six of the Violets; vocal solo, Miss West; flag drill, by the Violets; song, "Woman's Sign for a Pocket," by Violets; fancy drill, concluding by Violets singing, "The Star Spangled Banner," with Old Glory waving in the hands of all ladies taking part.

Small Dinner Party  
Miss Mary Taylor was hostess at a pretty five-course dinner last evening at which covers were laid for a quartet of ladies only. Pink roses were used in decoration and dinner was served at 6 o'clock.

Besides the hostess, Miss Taylor, those seated at the charmingly appointed table were Miss Rose Wilson, Miss Snure and Miss Alberta Black, the latter being Miss Taylor's house guest for several days.

The evening was happily spent. Miss Wilson, who is a successful reader, pleased with recitations, and Miss Black rendering lovely instrumental numbers on the piano.

## FOR THEIR DAUGHTER

Mr. and Mrs. White Entertain in Honor of Mrs. Courtney Who Soon Leaves This City

In honor of their daughter, Mrs. J. C. Courtney, who is soon to start for Arizona, Mr. and Mrs. White invited the Young Married People's Class of the First M. E. church to spend the evening with them at their home on North Bush street.

The evening was spent in guessing contests, games and pleasant conversation. A graphic and amusing history of the life of Mrs. Courtney, written in rhyme by her girlhood chum, was read and much enjoyed.

Delicious refreshments of mock "egg on toast" and cocoa were served.

The class is indeed sorry to see Mrs. Courtney go, yet each member wishes her God-speed.

Those present besides Mr. and Mrs. White and their daughter, Mrs. Courtney and Mrs. W. F. Miller from Orange, were: Mr. George F. Hill, Mr. and Mrs. A. H. Theal, B. J. Warner, E. D. Johnson, R. H. McArthur, O. M. Newman, F. Blauer, G. Breeding, J. Albright, F. J. Haynes, D. W. Stearns, W. Freeman, H. A. Wassum, Mrs. Maude Miller, Mrs. E. Barger and Mrs. W. Allen.

## RE-OPENING WEEK

Methodists Prepare Tentative Program of Rejoicing Over Church Progress

After expending a good many thousand dollars in remodeling their church in its various departments, the members and congregation of the First Methodist church of this city will give vent to their joy over the much they have been able to accomplish, in a week which they will call "Re-opening week. This period of rejoicing will begin on Friday evening, September 13, with a banquet at the church for the church members. This will be a real festivity.

On the Sunday following there will be three church services in the remodeled church which will then be open for all services. The morning sermon will be preached by Rev. T. C. Hill, now of Ohio, but for many years a foremost figure in church circles in Salt Lake City, Utah, where his strong individuality and forceful eloquence did much to bring about modern conditions and freedom in the Mormon capital. The afternoon sermon will be delivered by Rev. Alfred Inwood, superintendent of the San Diego District, and the evening service will be addressed by Charles M. Melvin, Ph. D., president of the New Orleans University.

On Monday evening Dr. Hill will deliver one of his famous lectures, and on Tuesday evening Dr. Larkin, superintendent of the Los Angeles District, will give an address. The latter address will be a part of the annual district convention of the Woman's Home Missionary Society of the San Diego District, which will open Tuesday morning and continue through Wednesday.

Further plans are being made for the remainder of the week and these will be announced later.

Next Sunday for the first time in some time past, Sunday school for the younger children will be held at the church.

Borchard-Heaton  
Many Santa Ana people will be interested in the wedding of Miss Myrtle Frances Heaton to Mr. Frank P. Borchard, which occurred at the Anaheim Catholic church Monday morning at 8 o'clock. The ceremony was performed by Father Dubble. Only the immediate relatives were present. The groom's father and brothers and their families came from Oxnard for the wedding.

After the ceremony a wedding breakfast was served, and later the happy young couple left in their Aperson automobile for parts unknown. They expect to be at home to their friends after the fifteenth of September.

Mrs. Geo. H. Bushard, sister of the bride, acted as matron of honor, and Chas. Borchard, brother of the groom, acted as best man.

Mr. Borchard is a son of Casper Borchard of the Conejo valley. He lived the larger part of his life in Ventura county until four years ago, when he came to Orange county, where he has proved himself to be a very energetic, active young man. Mrs. Borchard is the daughter of Mr. and Mrs. John Heaton of Huntington Beach. She is highly esteemed and loved wherever she is known. The friends of this young couple will unite in wishing them a bright and happy future.

The Band Concert  
The band concert was well attended last evening and very hearty applause cheered the hearts of the musicians, who found the weather conditions rather difficult to overcome in playing.

There will be not more than two other concerts this season, and possibly but one. The last out-of-doors concert will be next Wednesday evening and the other, if held, will be a sacred concert to be given on a Sunday afternoon.

The Santa Ana City Band has been invited to play in the big parade of the national G. A. R. encampment to be held next month in Los Angeles. The Angel City is very appreciative of the local band. On the recent appearance of the band in the Shriners' parade in the Angel City, it was complimented on making the best appearance of any band in the line, and the musicianship of the band was highly commended.

**SLIM CHANCE FOR 70-YEAR OLD MAN**

Only 1 in 10,000 Self-supporting at That Age; Age Seems to be Individual Matter

CHICAGO, Aug. 29.—You have one chance in 10,000 of supporting yourself when you are three score and ten, according to information which was imparted to Prof. Charles R. Henderson's class in sociology at the university of Chicago yesterday. Superintendent William C. Graves of the James C. King home for old men made the statement in a lecture on "The Broken Family."

One in Ten Thousand "Only one man in 10,000 is self-supporting at the age of 70 years, according to the statistics," said Mr. Graves. "In the United States there are approximately 1,250,000 former wage-earners, to years and older, dependent on public and private charity, at a cost of \$220,000,000 a year. There are about 300,000 old persons in benevolent institutions and homes in this country. It costs about \$50,000,000 a year to care for them."

"Old age seems to be an individual thing to each person reaching it. It is difficult to state that a person is old at 60 or 65, or 70, or beyond that."

**Three Ages of "Man"**

(1) The number of years a person has lived.  
(2) Industrial old age, when a person, though still well and able to work cannot compete with younger men. In these days of efficiency tests, when one must measure from 70 per cent to 80 per cent of perfect service to hold his own, industrial old age comes to many who are mentally and physically able to work.

(3) The condition of the body and the mind. Old age is the involution period of life, when hardening of arterial walls and other tissues come. It is the time of impairment of bodily functions."

**Six Reasons Why You Should Do Business With This Bank**

1. Depositing your money in bank makes it absolutely safe from loss by robbers, fire or accident.
2. With a bank account you can pay your bills by check. The canceled check is a legal receipt for payment. You cannot be made to pay the bill twice.
3. A check book makes all your money available at any moment, and you are never bothered about making change.
4. The bank keeps your books. Every deposit and the amount of the checks you draw are carefully entered in your pass book by expert bookkeepers, so that you know where you stand at the end of the month.
5. Nearly every man needs to borrow money at some time. If you are well known at the bank, through your bank account, it is easy to get accommodation.
6. Every check you write is an advertisement of your good business habits and solid worth, which has the effect of raising you in the general esteem of your neighbors.

Any one of the above reasons is of itself sufficient to influence you to open a bank account. It will only take a short acquaintance with this bank, and the facilities it offers, to convince you that six reasons are only a few of many more why you should make it your financial home. Now is the time to begin the practice of these most approved business methods, and to make this bank what we want it to be—

## IN THE JUSTICE COURT

MAN AND WIFE  
MUST ANSWER

Woman Passed the Checks to Which Husband Admitted He Forged Gillmore's Name

R. S. Ford and his wife, Susanah, were in justice's court today with their attorneys, Clyde Bishop and H. C. Head. The man and his wife were given preliminary examinations of two charges, and on each they were held to answer in the superior court. The evidence against the young woman is stronger than against the man for the woman passed the checks. Ford tried his hand at it, but was unable to get any cash. Mrs. Ford, however, managed to pass at least three.

Two of the checks were concerned in today's proceedings. The first charge accused the couple of forging the name of T. M. Gillmore of English street, father of the girl, to a \$20 check accepted by C. D. McAlister of the Rutgers.

McAllister testified that the girl rented rooms of him, and paid in advance, receiving change, but never occupied the rooms.

Constable Jackson and Jailer Boynton testified that on the morning after the couple were arrested after a \$25 bogus check had been cashed for the woman at J. T. Wilson's cigar stand, the man and woman were given a chance to talk to each other at the jail in the presence of the officers. At that time Ford stated that he forged Gillmore's name, and that the girl passed the checks, and that he had tried to pass some checks but failed.

The second charge concerned a \$25 forged check passed at Reinhaus Bros., where the girl bought \$11 in goods and received \$13 in change.

T. M. Gillmore, father of the girl, testified that the signature to the checks was not his signature.

Justice Cox held the two to answer, the bail being \$1000 in each case for each defendant.

## HOTELS AT LONG BEACH

## SEEKING LIQUOR LICENSE

LONG BEACH, Aug. 29.—It was the sense of a meeting of several business men yesterday that a plan for the disposal of the liquor question, such as revivals in Pasadena, where certain hotels are allowed to dispense liquor to their guests, would do away with the "blind pigs" of Long Beach, and give better satisfaction than the present ineffective ordinance, which prohibits the importation of liquor into the city except for medicinal purposes.

A request was made to the council yesterday that action be postponed in the matter of calling a special election to decide the question, until the advocates of a more liberal policy can prepare an ordinance that will, in their opinion, meet the needs of the city.

HE DOES NOT LIKE  
HIS GRUB OR JOB

William Parker, colored, does not like jail grub. He does not like to break rock. There are a few other things he doesn't like, but particularly he dislikes his grub.

William is used to fried chicken and such like. Over at Orange a few days ago he applied for a hand-out, and because the grub was just ordinary, wholesome food he was disgruntled and insulting. He was arrested and sent over to jail for sixty days.

William has been put to work on the rockpile gang employed back of the city jail with "Tex" Stacey in charge. This morning William made a run for it. He got around the corner and was flying south on Sycamore street when George Spangler caught sight of him.

Spangler let out a yell and started pursuit. The yell and Spangler together scared William mightily, but for William cast one frightened look over his shoulder and put on steam. He ran head on into a telephone pole, and before he could pick himself up Spangler had him. This afternoon William is at work with a ball and chain attached to one leg.

United States Senator From California Makes Public Announcement of Intention

SAN FRANCISCO, Aug. 29.—George C. Perkins, United States Senator from California, announced his permanent political retirement, upon his return from Washington yesterday. In a statement made public here, Senator Perkins said he would not be a candidate to succeed himself. He assigned failing health and the infirmities of age as the cause.

## LAURIER LAUDS PEACE

England Thinks of War, He Says: Canada of Public Works, Canals and Railways

OTTAWA, Ont., Aug. 29.—Pointing to the fact that for more than 100 years differences between Canada and the United States had been settled without resort to arms, Sir Wilfrid Laurier declared last night that war arbitration was better than the most successful war. He spoke at a dinner to visiting British financiers and legislators.

"In England," he said, "they think of armaments and war; in Canada we think of canals and railways and public works."
